

ANKIT KUMAR VISHWAKARMA

Full Stack Developer (MERN) | Ranchi, Jharkhand - 834001

+91 76544-18072 | ankit789.en@gmail.com | linkedin.com/in/ankitkumar | github.com/ankitkvishwakarma

Objective

MERN Stack Developer with hands-on experience building full-stack web applications including a role-based CRM system and a real-time chat/video-calling platform. Skilled in React.js, Node.js, Express.js, and MongoDB, with a strong foundation in DSA (250+ problems solved on GeeksforGeeks and LeetCode). Seeking a Full Stack / Frontend Developer role to build scalable, production-grade applications.

EXPERIENCE

IT Instructor | Extramarks Education Pvt. Ltd. (Government School Deployment)

Jan 2026 – Present

- Delivered computer fundamentals and digital literacy training to school students, including hands-on lab sessions.
- Managed computer systems, software installation, and troubleshooting for a multi-system lab environment.
- Designed lesson plans and performance assessments, improving student engagement and outcomes.

MERN Stack Developer Intern | Shashi Info Tech Pvt. Ltd.

Jan 2025 – May 2025

- Built full-stack web applications using MongoDB, Express.js, React.js, and Node.js (MERN stack).
- Developed responsive UI components and RESTful APIs; integrated user authentication using JWT and Firebase.
- Collaborated using Git/GitHub version control and deployed applications via Vercel and Render.

PROJECTS

Employee Attendance Management CRM System

Jul 2025 – Present

- Built a full-stack CRM system to manage employee records, attendance tracking, and admin operations end-to-end.
- Implemented secure role-based authentication and authorization (JWT) for Admin and Employee user types.
- Developed core modules: employee management, attendance tracking, dashboard analytics, profile and leave management.
- Designed a responsive UI with protected routes and real-time form validation on a scalable backend architecture.

Real-Time Messaging App with Video Calling

Jul 2025 – Present

- Developed a real-time chat application with secure JWT-based login and peer-to-peer video calling via WebRTC.
- Implemented live online/offline presence tracking and group chat functionality.
- Reduced application load time by 30% by deploying the frontend on Vercel and backend on Render.
- Engineered reconnection and error-handling logic to maintain call stability under unreliable network conditions.

TECHNICAL SKILLS

- Languages:** Java, JavaScript, Python
- Frameworks & Libraries:** React.js, Next.js, Node.js, Express.js, Tailwind CSS, Spring Boot, Hibernate
- Databases:** MongoDB, MySQL
- Tools & DevOps:** Git, GitHub, Docker, Vercel, Render
- Core Concepts:** Data Structures & Algorithms, OOPs, MVC, Microservices, REST APIs

EDUCATION

Master of Computer Application (MCA)

Marwari College, Ranchi University

Nov 2023 – Jun 2025

Score: 82%

Bachelor of Science in Computer Application (BCA)

Nilamber Pitamber University, Palamu

Aug 2018 – Jun 2022

Score: 74%

CERTIFICATION

- Full Stack Web Development using MERN — Shashi Infotech

ACHIEVEMENTS

- Solved 150+ coding problems on GeeksforGeeks and 100+ on LeetCode.
- Consistently delivered scalable, optimized applications with clean UI/UX.
